DWENGER HALL

THE GROUNDS

The College lawns, parks, groves, and campus are a surprise to the visitor. It would be difficult to estimate financially the amount of labor and care that has been expended in past years in their development. Acres of green are dotted here and there with beds of blooming flowers, shrubs and trees; while the groves, left to be as nature intended them to be, are full of many species of wild flowers and birds. Stretching away to the southward is an orchard of over seven hundred fruit trees—a veritable riot of bloom and fragrance in the month of May.

VIEWS

THE COLLEGE CHAPEL

The College Chapel is used exclusively by the inmates of the institution. It was completed in 1909 at a cost of over \$100,000.00, and is believed to be one of the largest and most beautiful College Chapels in the United States. Due to the generosity of patrons and alumni many a gem of ecclesiastical art is to be found there.

The basement of the Chapel Building contains the dining rooms and service rooms. The dining rooms are bright, airy and roomy.

CHAPEL BUILDING

CHAPEL INTERIORS

A DINING ROOM

THE ALUMNI HALL AND GYMNASIUM BUILDING

This building was completed and furnished in 1915-16 at a cost of nearly \$150,000.00. It is fireproof throughout and contains, besides the large space devoted to athletics and recreation, the College library and reading rooms, the Music Department, the Science Department and the College Auditorium (Alumni Hall)—a total floor space of over 50,000 square feet.

ALUMNI HALL AND GYMNASIUM BUILDING

ALUMNI HALL

The College Auditorium, known as Alumni Hall, seats 750 persons. The large stage is equipped with splendid scenery, border and spot lights, dimmers, etc., permitting the production of the best theatricals with ease and confidence. Practically every week of the school year the students are assembled to witness the production of musicals, concerts, plays, recitals, and programs presented by some of their number. These entertainments are supplemented by motion picture programs of the best class.

VIEWS OF ALUMNI HALL

THE LIBRARY AND READING ROOM

The College Library contains about 11,000 volumes touching every branch of knowledge. The reading room is unusually large and is well lighted; at night by means of reflected or indirect light.

All students are permitted to visit the reading room, but their reading is under the supervision of the librarian. The reading of fiction is prohibited during study hours except under conditions covered by the library rules.

VIEWS OF READING ROOM

THE SCIENCE LECTURE ROOM AND PHYSICAL LABORATORY

The science facilities of the institution amply meet all the requirements of the best professional schools. Students acquire fresh and concrete knowledge of the principles of science by working out problems and projects experimentally in the laboratory. The Physical Laboratory has working space and equipment for forty students working at one time.

THE CHEMICAL LABORATORY

The chemical laboratory tables are supplied with gas, water, reagents, and individual lockers for supplies to be used in the experiments. The room is large and there is sufficient space for fifty working at one time. Besides giving the student the necessary credit for the professional schools, the aim of the science courses is to acquaint him with the knowledge that will broaden his view of life and interpret the phenomena about him in his daily life.

SCIENCE LECTURE ROOM

PHYSICAL LABORATORY

CHEMICAL LABORATORY

THE BASKET BALL FLOOR TURNER HALL

The play hall is eighty feet long and fifty feet wide, somewhat larger than the regulation basket ball floor. It is entirely free from obstructions, is twenty feet high, and the walls are lined with cream colored vitrified brick. Baskets are so arranged that two games can be played at the same time.

ANOTHER GYMNASIUM

Turner Hall (40x50 ft. and 20 ft. high) is used exclusively for gymnastic exercises. It is furnished with rings, parallel bars, horizontal bars, mats, ladders, horses, punching bag, and other devices usually found in rooms of this kind. In addition to this equipment there is also an outdoor gymnasium equipment for use in the spring and fall.

THE SHOPS, POWER PLANT, AND SERVICE BUILDINGS

The College not only possesses a living endowment in its professors, working brothers, and students, who receive no salaries, but also a valuable asset in a highly productive farm of about 700 acres. Being independent of the market is the constant study. Fresh meat, milk, and butter from our own herds and dairy, fresh bread, pies, and cakes from our own bakery, and the thousands of gallons of preserves, jams, and fruits that are canned in season, and the thousands of bushels of vegetables that are stored away or hilled up in the garden as grandfather did it, are the means by which a good and bounteous table is supplied. The kitchens, dining rooms, and laundry are in charge of the Sisters of the Precious Blood.

The College also possesses its own power and light plant, repair shops, laundry, and water supply system.

POWER PLANT AND SHOPS

THE CLASS OF 1921

The spirit among the students of St. Joseph's is an easy, democratic, and fraternal one. The boy develops physically and morally in an atmosphere that puts the habits of a gentleman into his heart rather than into his clothes. There are no cliques, and true merit is swiftly recognized. About one-half the graduates of the institution are priests or students for the priesthood.

THE ST. STANISLAS ALTAR SOCIETY

The Society was organized for the purpose of training the students to serve at High Mass and to assist in the sanctuary at other solemn services. Occasional meetings are held during which the significance of the beautiful rubrics of the Church are explained to the acolytes.

CENTER—CAMPUS AND GROVE

ATHLETICS

The College encourages athletics for the sake of exercise and recreation. No one can deny that athletics evolve and expand the faculties of the body and preserve and promote its health; they train the mind to form quick and correct judgments and habituate it to resourcefulness in emergency; they school the growing boy in forbearance and self-control and practice him in the gentlemanly accomplishments of tact and courtesy.

St. Joseph's properly provides its students with every accommodation and opportunity for reasonable participation in all sorts of approved athletics, as the description and views of the campus, gymnasium, and equipment show. Besides the many inter-hall and inter-class contests, games are also arranged with neighboring institutions. No student is, however, permitted to represent the College in these games unless he has attained a certain proficiency in his class work.
